

Assembly of model PA1500WIFI4 for portable usage

Follow this guide if you wish to assemble the supplied foot for portable usage of the Mill Invisible WiFi panel heater, model PA1500WIFI4.

1. PARTS

- 2 feet brackets
- 8 screws (pre-mounted)
- 2 rails for the foot

2. ASSEMBLY

Remove the pre-mounted screws on both legs before you insert them into the brackets so that you get a stable foot.

A Attach the legs to the brackets by tightening two screws into each bracket.

B Remove the pre-mounted screws from the bottom of the heater and place the heater gently on its head to mount the feet.

C Two screws must be fastened on each foot bracket.
